LA MANGA CLUB: RULES AND REGULATIONS ON THE USE AND DISCIPLINE ON THE SPORTS FACILITIES - GOLF

APPENDIX A: GOLF RULES AND CLUB ETIQUETTE

These rules offer a guideline on how Players are to play and behave on the sports facilities. It is essential that all involved respect other Players and that they observe the rules & etiquette at all times.

Golf is played, for the most part, without the supervision of a referee or umpire. The game relies on the integrity of the individual to show consideration for other Players, care for the course and to abide by the Rules. All Players should conduct themselves in a disciplined manner, demonstrating courtesy and sportsmanship at all times, irrespective of how competitive they may be.

GOLF RULES

The rules of golf of the Royal and Ancient Golf Club of St. Andrews, as approved by the Royal Spanish Golf Federation apply. Local Rules will be published as required by the Director of Golf. Current rules are posted on the notice board in golf Reception. For major events (Professional, RFEG, Owners Championships etc.) special versions/variations may apply, as published by the Committee in charge of the competition.

COURSE ETIQUETTE

Players should pay particular attention to the etiquette as published in the Rules of Golf.

Etiquette is an integral and inextricable part of the game, which has come to define golf's values worldwide. Put simply, it is a series of guidelines that exist to show other Players. In terms of golf's environment, etiquette is about showing respect for the course on which you are playing and the work that has been put in to create it. It's about making sure that the game is played safely and that others on the course are able to enjoy the round as much as you.

In short: it's about showing consideration to all others on the course at all times.

PLAYERS – YOUR RESPONSIBILITIES

Very few golfers would admit to being slow Players, but we can all do our bit to play a little bit faster. Keep up with the group in front do not worry about the group behind – keep up with the group in front:

- If you feel that your group is falling, behind take responsibility and bring this to the attention of the other Players in your group.
- React positively to the situation. If your group is behind there is no need to run but try to catch up quickly. If you lose a clear hole and are delaying the group behind invite the group behind to play through.
- If there is no group in front of you and you are delaying the group behind invite the group behind to play through. Be ready to play. When it is not your turn to play use your time wisely to prepare so that when it is your turn you are ready to play:
- Put your glove on, check your yardage, assess the wind strength and direction. Decide on the type of shot that you are going to play. Select your club. When it is your turn to play, play promptly: Decide on the shot and execute it. You only need one practice swing. You do not need to waggle the club back and forth and round about again and again.

At the putting green: Assess your line, repair pitch-marks on the green and remove loose impediments while others are playing. It is not necessary to look at your line from every angle. You do not need to have an alignment mark on your golf ball and ensure that it is perfectly aligned to the hole before every putt. Move off the green as soon as all Players in your group have holed out and mark score cards at or on the way to

LA MANGA CLUB: RULES AND REGULATIONS ON THE USE AND DISCIPLINE ON THE SPORTS FACILITIES - GOLF

the next tee. Speed up your exit by positioning your bags on the way to the next tee. If each Player took a few seconds off their pre-shot routine, then the cumulative effect would be very significant.

Bunkers: Before leaving a bunker, Players should carefully fill up and smooth over all holes and footprints made by them and any nearby made by others. If a rake is within reasonable proximity of the bunker, the rake should be used for this purpose. Repair of Divots, Ball-Marks and Damage by Shoes

Players should carefully repair any divot holes made by them and any damage to the putting green made by the impact of a ball (whether or not made by the Player himself). On completion of the hole by all players in the group, damage to the putting green caused by golf shoes should be repaired.

Players should avoid causing damage to the course by removing divots when taking practice swings or by hitting the head of a club into the ground, whether in anger or for any other reason. Players should ensure that no damage is done to the putting green when putting down bags or the flagstick. In order to avoid damaging the hole, Players and caddies should not stand too close to the hole and should take care during the handling of the flagstick and the removal of a ball from the hole. The head of a club should not be used to remove a ball from the hole. Players should not lean on their clubs when on the putting green, particularly when removing the ball from the hole. The flagstick should be properly replaced in the hole before the Players leave the putting green.

Local notices regulating the movement of golf carts should be strictly observed.

You should always show consideration for other Players on the course and take care not to disturb their play by moving, talking or making unnecessary noise.

You should also ensure that any electronic devices taken onto the course don't distract other Players.

Only tee your ball up when it's your turn to play and remember not to stand close to the ball, directly behind it, or directly behind the hole, when a Player is about to swing.

You should be careful not stand on another Player's line of putt or, when he is putting, cast a shadow over his line and you should remain on or close to the putting green until all other Players in the group have holed out.

In stroke play, if you're acting as a marker, on the way to the next tee you should, if necessary, check the score with the Player concerned and record it.

Ensure that no one is standing close by or in a position to be hit by the club, the ball or any stones, pebbles, twigs or the like when they make a stroke or practice swing. Wait until the Players in front are out of range. Players should always alert green staff nearby or ahead when they are about to make a stroke that might endanger them. If your ball's heading in a direction where there is a danger of it hitting someone, shout a warning immediately. The traditional word of warning is "fore".

The Starters and Marshalls are on duty to help regulate play and ensure an enjoyable round by all. This includes assisting with the speed of play. Your cooperation is appreciated.

The marshals are instructed to move groups forward if they lose their place on the course. They will require all groups to maintain adequate PACE OF PLAY. Their decision is final. If you are not holding your place on the course, allow the Players behind to play through. Do the same if you stop to search for a lost ball. In severe circumstances golfers will be asked to walk a hole to catch up or leave the course and no compensation will be given.

When approaching a green, park your golf buggy on the buggy path on the best direct line to the next tee. ~~This can save over half an hour per round. Never leave the golf buggy in front of the green where you will have~~

LA MANGA CLUB: RULES AND REGULATIONS ON THE USE AND DISCIPLINE ON THE SPORTS FACILITIES - GOLF

to go back to get it, while the following Players wait for you to get out of the way. This comment also applies to trollies which should not be taken onto greens or tees.

On average it should take a four-ball no more than 15 minutes to play a hole, making 4½ hours for a round. Marshals have pace of play charts which give the time Players are expected on each tee allowing for length of holes and distances from a green to the next tee. Poor play may result in handicap certificates being requested and/or Players being asked to leave the course. No compensation will be given.

Players using a buggy should respect the pace of those walking, who set the rhythm of the game.

Players are requested to pick up tees after driving. Players should be careful in discarding broken tees since the tees damage the mowers and puncture golf buggy tires. Holders will be provided for this purpose.

Enter and leave bunkers at the nearest level point to the ball. Before leaving a bunker smooth sand over with a rake and leave the rake with the head well in the bunker and the end of the handle on the grass at the edge of the bunker.

All matches whether singles, two, three or four balls have the same standing on the course. Single Players and 2 ball matches may be grouped with other Players, if available, at the discretion of the starter.

Each Player must have their own set of golf clubs.

"Cutting-in" is not permitted at any time. All Players must check in with the starter. Under no circumstances are Players permitted to start play from residences.

All Players who stop play for any reason (including for refreshments) must be on the next tee before the following Players arrive at the tee or they will lose their position on the golf course and must get permission from the starter to resume play.

Do not throw rubbish or any other object (bottles, fruit skin, empty ball packs, etc.) on the course. Waste bins are provided on all teeing grounds.

Practice is not allowed on the golf courses. The practice facilities provided by *the* Proprietor must be used for all practice.

If lightning is in the area, all play shall cease, and Players should seek appropriate shelter immediately. Marshals will sound a hooter under these circumstances.

Please be aware that the water used to irrigate the course may contain impurities and possibly poisonous substances. Players should avoid licking golf balls as this may cause serious illness.

APPENDIX B: DRESS CODE

- Golf attire should be neat, tailored and consistent with the standards of the Club and tradition of the game of golf.
- The use of t-shirts, sleeveless t-shirts (men only), jeans, athletic apparel, bathing suits and short above the knee length is forbidden.
